DEC 27 1985

Corrected application filed.....

JAN 06 1986

Map filed.....

The applicant Cities of Reno and Sparks Wastewater Treatment Plant

8500 Kimlick Lane

, of

Reno

Street and No. or P.O. Box No.

City or Town

Nevada 89502

State and Zip Code No.

....., hereby make..... application for permission to appropriate the public

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-

tion; if a copartnership or association, give names of members.) The Treatment Plant is owned jointly

by the Cities of Reno and Sparks, political subdivision of the State of Nevada

1. The source of the proposed appropriation is underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 180 gpm or 0.40 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for Industrial AFM process water required for plant operations
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated not applicable

(b) Stockwater, state number and kinds of animals to be watered not applicable

(c) Other use (describe fully under "No. 12. Remarks") see #12

(d) Power:

(1) Horsepower developed not applicable

(2) Point of return of water to stream not applicable

5. The water is to be diverted from its source at the following point NW 1/4 of NE 1/4 of Section 14
Describe as being within a 40-acre subdivision of public

T 19 N R 20 E - Washoe County which bears N 84° 41' 28" E 2306.63' to the NE
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

Corn. of Section 14 T 19 N R 20 E MDB & M

6. Place of use within the Reno Sparks Wastewater Treatment Plant 8500 Kimlick Lane, Reno,
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

NV 89502 - Within the NW 1/4 of the NE 1/4 of Sec 14 T 19 N R 20 E MDB & M

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and

specifications of your diversion or storage works.) Well and pump with pressure pipe distribution
State manner in which water is to be diverted, i.e. diversion structure, ditches and
throughout wastewater treatment plant
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works Work was completed in 1964

10. Estimated time required to construct works. Work was completed in 1964
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use presently in operation

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This is an application for an existing well. The well was constructed in 1964

and has been in continuous use as process water at the plant. Well log was

submitted to State Engineer in December, 1964.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.40 cubic feet per second, but not to exceed 15 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 19, 1987

Proof of completion of work shall be filed on or before June 19, 1987

Application of water to beneficial use shall be made on or before May 19, 1989

Proof of the application of water to beneficial use shall be filed on or before June 19, 1989

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed JUL 20 1987 IN TESTIMONY WHEREOF, I PETER G. MORROS

Proof of beneficial use filed JUL 17 1989 State Engineer of Nevada, have hereunto set my hand and the seal of

my office, this 19th day of May

State Engineer

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total combined duty of water under Permits 49467 and 49468 shall not exceed 15 million gallons annually.
